

MAKE THINGS. MAKE THINGS BETTER. TEACH OTHERS.®

KEY DIFFERENTIATORS

Established in 2012, The Innovation Garage is a *small business change management consulting firm* whose mission is to *Make Things. Make Things. Teach Others®*.

The Innovation Garage helps organizations with leadership consulting and change management services to develop and implement innovative solutions to their organizational challenges. They provide long-term value to their clients by taking a holistic approach to change management and problem-solving, which includes identifying opportunities for growth, developing strategic plans, and implementing new technologies and processes for products, processes and services.

Additionally, the firm works closely with their clients to understand their unique needs and tailor their services to support those needs. This ensures that the solutions they provide are not only effective, but also sustainable in the long-term. By providing ongoing support and guidance, they help their clients to continuously improve and adapt to changing market conditions.

The Innovation Garage is also a registered education provider for the Ohio Department of Development's Tech-Cred Program.
